Agenda

Certified Scrum Product Owner® is responsible for maximizing the value of the product and the work of the Development Team. How this is done may vary widely across organizations, Scrum Teams, and individuals. CSPO is the one responsible to interact with customers showing them value being delivered by product getting developed and have been taught the Scrum terminology, practices, and principles that enable them to fulfill the role of Product Owner on a Scrum team. CSPOs are typically the individuals who are closest to the “business side” of the project. They are responsible for product and are expected to do the best possible job of satisfying all the stakeholders. CSPOs maintain the product backlog and ensure that everyone knows the priorities. Taking the CSPO course is the first step on your path of becoming more Agile.

Scrum Alliance suggest below Agenda for CSPO Workshop
